FRANCHISE

2006 Franchisee Satisfaction Awards

Dear Entrepreneurs,

There are more franchise opportunities today than ever before and the timing has never been better for investing in a franchise business. That said, there are many factors to consider when buying a franchise and one of the most important is franchisee satisfaction.

Franchise Business Review conducts independent surveys of franchise owners to measure their overall satisfaction. We examine the critical areas of a franchise system including training & support, operations, franchisor/franchisee relations, financial opportunity, and more. Our franchisee satisfaction reports deliver the unbiased facts about the health of a franchise system direct from the franchise owners – today's real franchise experts.

For the **Franchise 50 – 2006 Franchisee Satisfaction Awards** we surveyed thousands of franchisees from over 200 leading franchise companies. The companies with the highest levels of franchise owner satisfaction became this year's Franchise 50 finalists.

Why is the Franchise 50 so important?

There are many different franchise ratings in the marketplace today yet the Franchise 50 is the only one that ranks franchise opportunities based on the critical measure of franchise owner satisfaction. This year's Franchise 50 is one of the most comprehensive studies ever done on franchise owner satisfaction and the results speak for themselves. Franchisee satisfaction is clearly the most important factor to consider before investing in any franchise opportunity. To be voted among the best of the best by their own franchisees speaks volumes about the franchise companies on this year's Franchise 50 list.

Happy Franchising!
