

# IMPORTANT GUIDELINES

*Your surface has been repaired or refinished using the finest materials available.  
In order to protect this repair/refinish and uphold your warranty  
the following guidelines must be followed.*

## *Do not....*

- \*Use abrasive or bleach containing cleaners:  
Soft Scrub, Ajax, Tilex, Clean shower,  
Bon Ami or other similar cleansers.*
- \*Use lemon-based cleaners as they cause  
surface discoloration.*
- \*Rest burning cigarettes on the edge of  
refinished surfaces.*
- \*Use solvents or put any tape on refinished  
surfaces.*
- \*Use suction cup bathtub mats or stick-on  
appliqués or strips*
- \*Hang bathmat or wet items over the edge  
of the tub or sink.*
- \*Leave shampoo bottles, cans, wet cloths  
on the surface for extended lengths of time.  
Some shampoos have dye in them that may  
harm finish and cans can rust.*
- \*Pour drain cleaner into tub with standing water.  
Remove all water and carefully pour solution  
into drain only.*

## *Do....*

- \*Use “Dawn” blue dishsoap, Spic & Span or  
vinegar & water diluted to cleaning solution to  
clean refinished surfaces with a soft sponge or cloth.*
- \*Wipe all moisture from refinished surface every  
time they are used for 7 days after refinishing.*
- \*Remove excess water and wipe surface after use.*
- \*Clean your refinished surface once a week with  
above mentioned cleaners.*
- \*Repair faucet leaks immediately.*
- \*If you feel the need, use a non-suction type bath  
mat in your tub.*
- \*Remove bath mat after each use, but do not hang  
mat over tub apron.*
- \*Maintain caulking around tub and drain.*

**5 year warranty on residential properties.**
